SUMMARY

UX Engineer IV with a track record of building and shipping products in a high-performance team. Learning to use technology to build new products is my passion. Taking ownership of the things I work on is my discipline. If you put your mind to it, you can accomplish anything.

SKILLS

React · JavaScript · Node.js · Python · HTML · CSS · Angular

EXPERIENCE

Carketa · Lehi, UT

Sep 2022 – Present

- Built a React vehicle reconditioning web app (tasking, photo capture, appraisals, dms sync).
- Worked with large volumes of data in BigQuery, PostgreSQL, AlloyDB to write and optimize queries for daily nationwide vehicle data.
- Debugged and maintained legacy products from PHP, Python, and Go applications for dms syncs and third party integrations.

React · Python · TypeScript · Tailwind · Shadcn/ui

Encore Solar · Lehi, UT

Dec 2017 – Sep 2022

- Built a React solar proposal contract tool that clients could use to sell warranties. The tool allowed custom branding and options to maximize conversion rates.
- Built a customer service polling-based support system with a Redis queue, cutting customer wait times 75% with zero downtime.
- Migrated data from MySQL to PostgreSQL, PHP to React/React, and legacy code to modern best practices. Speeding up applications significantly as we started scaling up our users.

React · Python · TypeScript · Next.js · PostgreSQL

Grow · Orem, UT

Aug 2014 – Dec 2017

- Built a React B2B KPI dashboard that gave SMBs analytics for their businesses. Whatever the data source we handled.
- Integrated hundreds of backend API data sources: Quickbooks, stripe, MySQL, Oracle, PostgreSQL and more.
- Built and maintained a Node/Express backend with PostgreSQL, Redis, and an Angular/React UI frontend dashboard. Web sockets for real-time data updates.

React · Node.js · Angular · TypeScript · Tailwind

Zagg · Salt Lake City, UT

Dec 2010 – Aug 2014

- Built a PHP/CodeIgniter backend for shipping, finance, inventory, and custom orders. Made it easy for customer service to increase upsales.
- Designed MySQL schemas for orders, inventory, and operations of the warehouse.
- Shipped many optimised SEO freindly front facing web pages for products in JavaScript, jQuery, CSS, and HTML.

JavaScript · HTML · CSS · PHP · MySQL

Classtop · Draper, UT

Oct 2009 – Dec 2010

- Built PHP, C#, Facebook applications that let students connect around classroom specialties and complete courses online.
- Implemented MySQL sharding and replication to keep data retrieval fast as the product grew, cutting query latency 75%.
- Hardened performance with indexes and query analysis as the application scaled to 100,000 users without sacrificing uptime.

C# · .NET · PHP · MySQL · jQuery

Stevens-Henager College · Salt Lake City, UT

Apr 2002 – Oct 2006

- Built ColdFusion applications for student records, finances, schedules, and testing used daily by staff and administration.
- Maintained backend data in Oracle with optimizations to keep the application fast as the student body grew.
- Delivered the staff UI in ColdFusion, JavaScript, CSS, and HTML so academic teams could manage records efficiently.

JavaScript · HTML · CSS · ColdFusion · Oracle

EDUCATION

Stevens-Henager College · Bachelor of Computer Science

Sep 2002 – Oct 2006
