SUMMARY

Web Developer with 15+ years of developing software for startups and established companies. Background in web development with a track record of building, shipping, and scaling products that deliver value. Strong problem solving skills and the ability to effectively communicate with clients and team members.

SKILLS

JavaScript · PHP · Python · SQL · HTML · CSS · Claude

EXPERIENCE

Carketa · Lehi, UT

Sep 2022 – Present

- Designed and shipped a JavaScript vehicle reconditioning platform (tasking, photo capture, real-time seller API sync) that allowed many new dealerships to start scaling their operations.
- Built a daily BigQuery and PostgreSQL analytics pipeline with partitioning, and indexing that cut dashboard query time 75% as vehicle volume scaled.
- Debugged and maintained product workflows from PHP, Python, and Go applications.

Python · Claude · React · TypeScript · Tailwind

Encore Solar · Lehi, UT

Dec 2017 – Sep 2022

- Shipped a JavaScript solar proposal tool that increased sales revenue 10 fold for clients by shortening the path from design to signed contract.
- Built a customer service polling-based support system with a Node.js/Redis queue architecture, cutting customer wait times 25% with zero downtime during the cutover.
- Migrated data from MySQL to PostgreSQL, PHP to React/JavaScript, and legacy code to modern best practices. Speeding up applications significantly as we started scaling up our users.

Python · React · TypeScript · Next.js · PostgreSQL

Grow · Orem, UT

Aug 2014 – Dec 2017

- Built a React B2B KPI dashboard that gave SMBs a view into their business performance and how to scale.
- Integrated hundreds of backend API data sources: Quickbooks, stripe, MySQL, Oracle, PostgreSQL and more.
- Built and maintained a Node/Express backend with PostgreSQL, Redis, and an Angular/React UI frontend dashboard.

React · TypeScript · Angular · Tailwind · Next.js

Zagg · Salt Lake City, UT

Dec 2010 – Aug 2014

- Built a PHP/CodeIgniter backend for shipping, finance, inventory, and custom orders.
- Designed MySQL schemas for orders, inventory, and operations of the warehouse.
- Shipped many optimised SEO freindly front facing web pages in JavaScript, jQuery, CSS, and HTML.

JavaScript · PHP · HTML · CSS · MySQL

Classtop · Draper, UT

Oct 2009 – Dec 2010

- Built PHP and C# Facebook applications that let students connect around classroom specialties and complete courses online.
- Implemented MySQL sharding and replication to keep data retrieval fast as the product grew, cutting query latency 75%.
- Hardened performance with indexes and query analysis as the application scaled to 100,000 users without sacrificing uptime.

PHP · C# · .NET · MySQL · jQuery

Stevens-Henager College · Salt Lake City, UT

Apr 2002 – Oct 2006

- Built the ColdFusion application for student records, finances, schedules, and testing used daily by staff and administration.
- Maintained backend data in Oracle with optimizations to keep the application fast as the student body grew.
- Delivered the staff UI in ColdFusion, JavaScript, CSS, and HTML so academic teams could manage records efficiently.

JavaScript · SQL · HTML · CSS · ColdFusion

EDUCATION

Stevens-Henager College · Bachelor of Computer Science

Sep 2002 – Oct 2006
